

EX PARTE INTERVIEW

Applicant requests an interview with the Examiner to discuss any potential questions or issues that the Examiner may have.

REMARKS - General

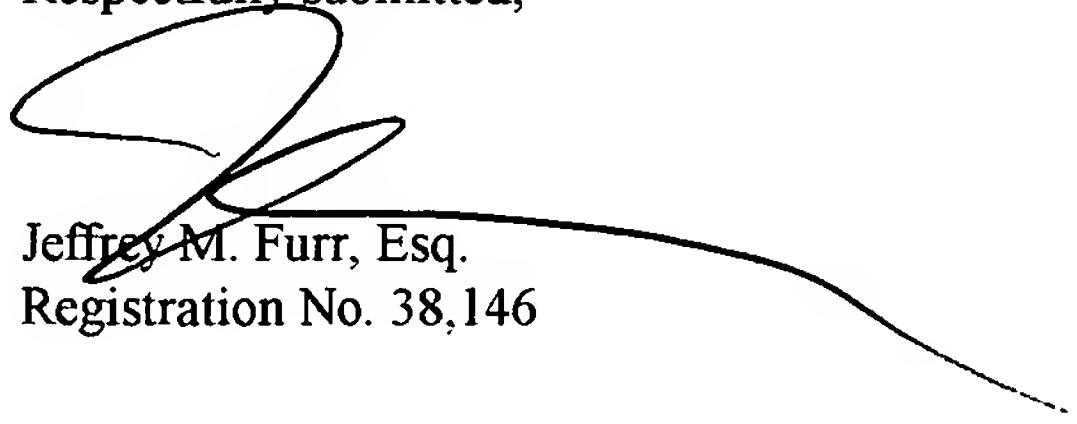

The Applicant has added element to the claims that are not disclosed in Guthry (US 5,509,657) which are novel and non-obvious to some skilled in the arts. The Current application allows the User to easily adjust the lie of the device.

Also applicants have rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentably over the prior art.

Conclusion

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

Respectfully submitted,
